

Nathan Viney
UK

D.O.B: 01/07/1990

Mob: 07964821476

Email: Munchmed@yahoo.co.uk

Profile:

I have been working with animation software, 'Flash' for up to eight years. Moving from doing my own personal cartoons to working professionally in animation. My interest in this medium has lead me to follow up my hobby into a professional workplace. I have worked for various clients, highlighted by the BBC and Children's Television.

All of my experience has made me become a very fast worker in both frame by frame and motion tween. I am also very good at working to a deadline. I am full of ideas and love to work with other creative people.

Professional Experience:

Little Howard's Big Question

BBC/CBBC Television

Freelance Animator.

I worked on a 2d Flash character as well as various other elements for two full series.

This job required me to

- Keep to deadlines
- Work with a team of animators, as well as the post production crew
- Work alongside directors
- Improvise, have my own ideas
- Animate and design characters and scenes
- Storyboard and Animatic various scenes

Duncan Oakley's Devil Song

Music Video

Animator/Director

For this project I was given an idea and an opportunity to do whatever I wanted.

- Work to a deadline
- Animation frame by frame character animation
- Storyboard and Animatic

Various online and University short films

Writer, Animator, Director

Through my personal cartoons and films I have learnt to collaborate massively with musicians, voice actors and artists. This includes writing basic scripts and directing the acting and music for the films.

Links to videos I have produced will be at the bottom of the CV

Solace Design

Website animations

I worked with a small Australian Graphics company on some website animation.

- Ray White Real Estate. (A silhouette cartoon flash intro)
- Edmund Rice (For this animation I had to work, frame by frame with already designed characters.)

Education:

Diploma in Moving Image

Foundation Degree in Animation Arts

Bachelor Degree in Animation Arts

Software:

Adobe Flash
Maya (Animation)
Adobe Premiere
Adobe Encore
Audacity
Sony Vegas
